

## **Delicious Wine Wedding Favors for Your special Day**

Weddings are a time for toasts to the bride and groom and, well, celebration in general. Wine plays a big part in the celebrating and some see it as a prerequisite for a fine wedding. With wine being such a big player in the game, why not keep the theme going with your favors in the form of wine wedding favors?

As well as wine itself, there is a whole host of other wine paraphernalia that can be used as a gift. How about some lovely crystal wine glasses? You can make two crystal wine glasses per favor with a decorative sticker personalizing the gift with your signatures and date of the wedding. These can be used in years to come to drink to your health. Maybe your guests will want to try them out on the day.

Wine stoppers always come in handy. As a practical item this is great but you can get some novelty wine stoppers for amusement or just elegant and pretty stoppers. Keeping with the crystal theme you can get a two pack faux crystal wine stoppers or a heart shaped diamond stopper for a reminder of the reason why the wedding is taking place.

A gift that would precede the stopper is the good old bottle opener, might seem a little dull, however don't underestimate the fancy bottle openers available. Maybe a decorative silver plated opener would do the trick with your initials' to give a personal touch. This is a gift that will be used and appreciated for many years.

The next natural thought would be the coasters. There are plenty of patterns and themes to choose from, or design your own again giving a personal touch! Wooden or glass, coasters will always be a great gift.

How about a few recipes for cocktails containing wine and champagne? You could frame the recipe list in a silver plated photo or picture frame. This wine wedding favor can be enjoyed over and over (hopefully not too much!).

Now for the wine itself! Perhaps you could take a trip to your local wine merchant's shop and get a few cases of choice wines and champagnes, or you could go for the half bottles for convenience and cost. Tie ribbons or bows around your bottle and include a pretty wine stopper as an addition, top off with a personalized message and you have a perfect personalized wedding favor.

A great resource for wine drinkers is a pocket sized book of good quality wines. Some people who enjoy wine but do not know too much of which is quality and which is not, tend to think they must pay dearly for a good bottle of wine. These guides are excellent for acquiring delicious high quality wine at a reasonable price, all the research has been done and you have the knowledge at your fingertips. This favor will be welcomed with open arms and enjoyed for many a year to come!

So you see, you can create wonderful favors with wine and wine related items that will come in handy and look great. Hopefully your guests won't be too drunk and leave them behind!
